

Intro to Tech-Entrepreneurship Syllabus

Wednesdays, 11:00-1:00pm

Instructors: Joe Carrano, Michael McCray

Office/Class Location: 444 Thomas S. Boyland Street, Brooklyn, NY 11212

Instructors' Contact: jcarrano@theknowledgehouse.org, macoovae@gmail.com

Introduction:

Welcome to the Intro to Tech-Entrepreneurship program brought to you by the The Knowledge House and Brownsville Community Justice Center. In the next 12 weeks you will learn how to create websites using the computer languages HTML and CSS.

Each week you will be given a wealth of resources and instruction that will aid you in learning what is available within the technology economic sector by gaining transferable skill sets that will guide you as you build websites and working in teams.

How to use this tool:

- Have this syllabus open on a tab at all times to follow the schedule and easily access links and documents. This document will be accessible as view-only. It will be updated regularly.
- Click on each date in the syllabus to link to that week's folder of presentations, articles, etc.
- In the day's agenda look out for links to tutorials and exercises and links to Google hangouts.
- The full agenda and links for that week will be updated and active in this document the week prior.
- Some links will take you directly to an activity or survey. Each day ends with a feedback form for you to complete.
- The work will be challenging, but keep up with it and don't give up. There will be random rewards, surprises and goodies throughout the program to keep you motivated!

Special thanks to our content partners Code Crew, Bronx Digital Meetup and GrantAnswers.

Any questions? Email tmitchell@theknowledgehouse.org.

Enjoy and let's build!

The Knowledge House Team

Wednesday, August 17, 2016

- 11:00am-11:25am: Introductions
 - JC and MM, [The Knowledge House](#)
